

Client Profile

Industry: Semi-Conductor, High-Tech

Location: Silicon Valley, CA

Specialty: Integrated Circuit Solutions

Challenges

Client needed to migrate their Oracle databases and corresponding application infrastructure from On-premises data center to public data center. Some of the servers and storage systems had to be shipped over the weekend.

Our Solution

Buxton team meticulously planned and designed a migration solution including Backup and Recovery. Buxton used industry leading practices in migrating databases, applications and servers to the public Data Center without any data loss and with minimum downtime.

Business Impact

User were able to access the systems during the next business without losing any data or functionality.
