

Client Profile

Industry: Occupational Safety and Health Administration

Location: Northwood, IL

Specialty: Neuroscience

Challenge

Client was looking to upgrade their Oracle EBS environment running on old de-supported hardware platform. Customer was looking for error-free upgrade of Oracle EBS Applications along with its database with a minimal disruption to business.

Our Solution

Buxton's DBA experts migrated client's Oracle EBS environment to a new hardware platform, upgraded the Oracle databases to 12c and upgraded the Oracle EBS environment using Buxton proprietary tools in a record time. Buxton team excelled in meeting the client's documentation standards. This project was executed with a combination of onshore and offshore resources.

Business Impact

With Buxton's innovative custom solution, Databases and Applications were migrated to new Linux server in a record time. Buxton completed the DB and Applications upgrade along with platform migration in a single short downtime window. Delivered a stable, high performing and highly available solution to client.
