

Client Profile

Industry: Semiconductor Test Solutions

Location: Silicon Valley, CA

Specialty: Medical Device Manufacture company

Challenges

Client needed to build a new Data Center, new systems and migrate existing applications/databases in less than 5 months

Our Solution

Buxton carefully planned, designed and built new data center, new infrastructure, installed latest version of software and migrated the data from parent company.

Business Impact

Buxton was able to migrate their critical applications and their corresponding Infrastructure with a minimal down time. Buxton delivered a highly performing, highly available and secure platform for the new company to build upon. Buxton's innovative solutions saved client millions of dollars in hardware and software license costs.
